

Draft Agenda

Meeting: Sixth SEAFOM Industry Event
 Dates: 27th & 28th September 2023
 Venue: Crystal Ballroom, Sofitel Abu Dhabi Corniche, Corniche Road East, Capital Plaza Complex, 44966, Abu Dhabi, UAE
 Phone: +971 2 813 7777
 Directions: See below
 OTM Contact: Sally Marriage: Tel: +44 (0)7943 827702
 Email: sally.marriage@otmnetworks.com

Wednesday, 27th September – Day 1			
Arrival & Registration			08.00
Safety message			08.30
1	Welcome & introduction	Shreekant Mehta, OTM	08.35
Case studies			
2	Keynote		08.45
3	World's largest 3D DAS VSP in an offshore carbonate field	ADNOC	09.15
4	Operator presentation	Tbc	09.45
Tea/ coffee break and exhibition			10.15
Data Management			
5	Flexible edge and cloud based fiber optic data management platform	Schlumberger	11.00
6	DAS for production monitoring	Equinor	11.30
7	Data management	Lytt	12.00
Lunch and exhibition			12.30
8	SEAFOM work groups status report	Work group leaders	13.30
Sustainability / CCS / geothermal			
9	Distributed fiber optic sensing for robust monitoring, measurement, and verification of CO ₂ injection	Silixa	14.00
10	CCS / geothermal	Operator (tbc)	14.30
Tea / coffee break and exhibition			15.00
Technology Development			
11	Disposable fiber optic conveyance of pressure and temperature gauges	Halliburton	15.45

Draft Agenda

12	Development of high-pressure high temperature (HPHT) optical connectors and feedthroughs for use in subsea and downhole systems	AMETEK	16.15
13	Permanent DAS monitoring of reservoirs	OptaSense	16.45
14	Wrap day one and intro to day two	Steering Committee	17.15
Evening reception and exhibition			17.30
Close			19.00

Thursday, 28th September 2023 – Day Two			
Arrival			08.00
Safety Message			08.30
15	Welcome		08.35
16	Operator roundtable		08.45
Tea / coffee break and exhibition			10.15
Technology Development			
17	bp's Azerbaijan fiber story	bp	11.00
18	High resolution and accuracy for petroleum industry applications: pipeline bending monitoring using temperature compensated distributed strain sensor based on coherent interaction of probe and depleted pump (CIPDP) technique	Oz Optics	11.30
19	Distributed acoustic sensor data processing technique for water cut	NORCE	12.00
Lunch and exhibition			12.30
20	Close		14.00

Draft Agenda

Exhibitor List

1. AMETEK
2. AP Sensing
3. Halliburton*
4. NBG
5. OFS
6. Oz Optics
7. Prysmian
8. TE Connectivity
9. Schlumberger*
10. Silixa*
11. Verrillon

*Hardware demonstrations
